Bright Butterfly

Give your hair a new twist!

1 Starting behind one ear, make a horizontal part across the top of your head. Use the front section to make a high ponytail, pulling the hair partway through the last time to make a small loop.

2 Use the back hair to make another ponytail slightly to the side of the first one. Adjust loops.

3 Wrap a few strands of hair around the loops to cover the elastics, and secure with a few butterfly clips. Decorate with clips.

Special Styles

Long, short, curly, straight—these tips will make your hair look great!

Q-T Pie

Try this fun way to recycle an old T-shirt.

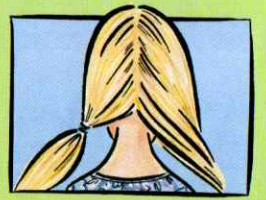
1 Ask Mom or Dad to help you find an adult-sized, short-sleeved T-shirt. Make sure the sleeve stretches enough to fit snugly around your head. Use scissors to cut off one sleeve.

2 Pull the sleeve over your head and down around your neck. Slide the sleeve up so it's just past your hairline. Leave bangs in or out.

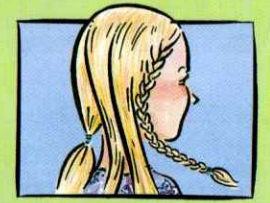
3 Finish with sparkly hair clips or bobby pins.

Braidy Bunch

This works best with very long hair.



1 Make a part down the back of your scalp for pigtails. Tie off one side with an elastic.



2 Separate loose hair into 3 sections. Make a small braid with the section in front. Secure with an elastic.

3 Using the small braid and the other two sections, make a braid. Secure with an elastic. Repeat on the other side.

All Tied Up

Ask a friend to help do this 'do.

1 Make a horizontal part across the top of your head from ear to ear. Tie off hair in back with an elastic.

2 Divide the hair in front into 5 equal sections. Starting in the center, secure each section with an elastic.

3 Undo the hair in back. Tie a narrow ribbon around each elastic. Let the ribbons hang down the length of your hair.
